ADDENDUM

You hold in your hand probably the most ambitious and unique split-result report for a race of our size, EVER--- the product of 1000 hours of work by almost 100 volunteers, all exclusive of pure race function.

In spite of the incredibly rapid growth of our event (430 applicants the first year, 927 this past running) we worked to maintain the little things that so characterize the pleasures of the smaller races. With the acquisition of donated computer time (courtesy of Martin Marietta), programmers, video equipment, operators, etc., we set about to do the impossible: get the race results including the 5, 10, 15 & 20 mile splits with the average time per mile per split, and average over all time, back to the runners the evening of the race---we missed by 2 hours.

The video cameras with the digital time imposed on the image by means of a Vicon Industries Time Generator device (crucial to our entire effort) taped the 5 and 10 mile points (too dense a pack for hand recording). The tapes were later read back at the Garrison Inn of Fort Erie in slow motion and entered on the usual split score sheet. Meanwhile, traditional manned scoring of the 15 and 20 mile splits and finish line was occurring. All of these points had a computer terminal set to go on pre-established telephone lines, into which the results, once logged, were fed to the computer at BOCES on the outskirts of Buffalo. At a pre-arranged cut-off time the computer was told to compile and within a short period the print-out sheets were spit out. A waiting Erie County Sheriff Car gave analyst-programmer Janet Fendrick an escort to Mr. Copy Printing Co. in Buffalo (they had been standing by for this overtime job). They would reduce the sheets to standard 8 1/2 by 11, duplicate, collate and staple into 1000 sets of results within two hours. Then Janet would transport the completed batch to our post race Skylon Tower gathering. She arrived at 10:30 PM, having been through a more tiring day than many of us that ran the race.

During the past two months we've tackled the refinement and clarification of results, getting as much data as possible from score sheets, video tapes, and other notes. The amended information was re-fed into the computer with thus more accurate and complete listings resulting. Forgive us for the tardiness in getting your results to you and for the unavoidable errors and admissions that still exist. But do applaud the efforts of the huge battery of volunteers led by Janet: Bill Fairchild and Paul Donovan of the Calspan Corporation - Programming; Don Ritzenhaler and Dave Gang of the Board of Cooperative Educational Services - Computer work; David Fendrick (Canisius College, Carol Fabrizio (Calspan) and Larry Taylor and crew from Welland (Ontraio) College - Video Coordinators.

We all thank you for your patience and look forward to seeing you again Oct. 16, 1976 for "The Great Race", --- the third annual BUFFALO TO NIAGARA---SKYLON INTERNATIONAL MARATHON.

The Steering Committee
